**Capture the  
Unseen.**

**Conveniently.  
Effortlessly.**

## Tired of Awkward Phone Photography?

Your phone's rigid camera forces you into uncomfortable positions, making it hard to get the perfect shot. Whether you're stretching over a crowd, bending uncomfortably low, or trying to be discreet, traditional smart phone photography has its limits.

Don't be like this...

## Introducing FlexVue: Your New View Awaits.

FlexVue redefines mobile photography. Our innovative case integrates a precision-engineered reflective lens system, allowing your phone to capture scenes not directly in front of it. Simply tilt and rotate the mirror, and watch your creative possibilities expand.

**Ergonomic Comfort:** Shoot naturally, without strain.

**Discreet Capture:** Document moments unnoticed.

**Any Angle Access:** Reach the impossible shot.

**Creative Freedom:** Unleash your artistic vision.

## FlexVue: Simple. Smart. Stunning.

### How It Works:

1. **Attach:** Snap your phone into the FlexVue case.
2. **Adjust:** Easily tilt and swivel the mirror to your desired angle.
3. **Capture:** Use your favorite camera app; our companion app does the rest.
4. **Adjust:** Our intelligent app automatically flips the image for perfect photos & videos! Rotate the captured image as desired. Improve the contrast and color balance if needed.

### Key Features:

- High-Quality Optical Mirror
- Precision Tilt & Swivel Mechanism (360° Rotation)
- Durable, Protective Phone Case Design
- Dedicated FlexVue Companion App (iOS & Android)
- Lightweight & Portable

Available with Polarized or Wide-Angle Mirror Options.

Available for leading smart phone models.
